

Marianist Life Plan:

A tool in deepening our Marianist life and consecration
(excerpt from Notes from the Provincial Council, Dec. 20,
2012)

The purpose is to allow us individually and within communities to think, pray, consult and plan for the next stage of our lives. These "Marianist Life Plans" can be shared with our communities so we can provide mutual support and encouragement. It will be the responsibility of each of us, and each community, to determine how these plans are made and shared. They also will be a point of reference for Provincial visitations.

On a practical level, the plan includes the following:

1. growth and development in Marianist religious life, including renewal programs, spiritual direction, reading, enrichment seminars and courses;
2. professional development for the next 3 - 5 years for current or future ministry;
3. physical needs, including exercise, health, diet, sleep, etc.;
4. transitional needs, including counseling, workshops, retooling or retraining; and,
5. community engagement.
